

## Internal Combustion Engine Counterbalance Truck

# H50 – H80 EVO

Capacity 5.0 – 8.0 t | Series 396

### Sustained performance

- Top operating performance for large loads by means of powerful engines and lift mast control system
- Improved visibility through slim lift mast profile
- Minimal service times due to hydrostatic drive – no transmission, clutch, differential or drum brakes
- Safe and quick load handling due to 30 % reduction in lift mast torsion
- Shifting roof-mounted steel grid protects driver from falling loads when mast tilted

# TECHNICAL DATA (According to VDI 2198)

# STANDARD AND OPTIONAL EQUIPMENT

Model/Equipment		H50 - H80 / 1100 D	H50 - H80 / 1100 T
Workplace	Ergonomic and save truck access due low entry step and handle bar at a-pillar and bonnet	●	●
	Innovative decoupling concept for lowest human vibrations	●	●
	Tilt adjustable steering column	●	●
	Interior light	●	●
	12 volt socket	●	●
	Overhead guard comfort for maximum head clearance	●	●
	Operator's seat - mechanical quick weight adjustment	●	●
	Various seating options such as heating, air suspension, active seat ventilation, longitudinal suspension	○	○
	Operators seat - swiveling seat	○	○
	Glare-free display, control lights for all major functions	●	●
	Top screen armoured glass	○	○
	Cabin doors with openable window	○	○
	Din A4 illuminated clipboard	○	○
	Warm water heater / air condition including defog function and rear window heater	○	○
Radio, DAB+, MP3 Player including bluetooth hands-free equipment	○	○	
Drive and Brake System	Linde Hydrostatic Drive - for high productivity and low fuel consumption	●	●
	Deutz Diesel Engine EU 2016 / 1628 Stage 5*	●	—
	DEF - injection (AdBlue®), particle filter, oxidation catalysts, exhaust gas recirculation	●	—
	Volkswagen LPG engine including 3-way catalyst	—	○
	LPG tank including fill level indicator in the display	—	●
	Engine air filter including safety elements	●	●
	Linde Engine Protection System (LEPS) - warning, speed reduction under critical engine conditions	●	●
	Hydraulic parking brake	●	●
	Oversized, variable displacement pump for lifting function - for low fuel consumption, low noise level and emissions	●	●
	Hydraulic filter concept - realizing 6000 hour hydraulic-oil change interval	●	●
Power settings: Efficiency, economy, performance	●	●	
Axles and Tyres	Super Elastic (SE) tyres	●	●
	Closed Shoulder tyres CS 20	○	○
	Pneumatic tyres	○	○
	Antistatic, non marking tyres	○	○
	Anti-spray mudflaps front and rear	○	○
Mast	Linde Torsion Support System reduces the torsional stress	●	●
	Top mounted tilting cylinders	●	●
	Best visibility through nested mast profiles on standard and triplex masts	●	●
	Electronic damped tilt stop	●	●
	Hydraulic accumulator for high driving comfort and less wear	○	○
Attachments/ Forks	Reinforced Linde forks - easy adjustable and long life time	○	○
	Different integrated attachments	○	○
	Street sweeper preparation	○	○
Safety	Linde Curve Assist - automatic drive speed reduction when cornering	●	●
	Electrical seat belt monitoring - visual and acoustic feedback	●	●
	BlueSpot and TruckSpot - optical warning signal for pedestrians and drivers	○	○
	Load weight indicator including assistance function	○	○
	Linde Safety Pilot - load-dependent travel and lifting speed intervention plus additional functions	○	○
	Linde Safety Guard - truck to truck warning and truck to pedestrian warning	○	○
Speed limitations (via switch, indoor-outdoor, load depending)	○	○	
Digitalisation	Data Transmission Online	○	○
	Data Transmission Wifi	○	○
	Linde connect:desk - local fleet management with different functional modules	○	○
	Linde connect:cloud - fleet management as a service (hosted version)	○	○
	Pre-Operation-Check - individualizable daily check protocol for operational readiness	○	○
	Truck Call App - coordination of transport orders	○	○
Operation/ Load Handling	Double pedal control - stepless acceleration and fast reversing	●	●
	Single pedal control - stepless acceleration	○	○
	Linde Load Control - central levers fully integrated in the armrest for precise control of all hydraulic functions	●	●
	Individual Lever System	○	○

● Standard equipment    ○ Optional equipment    — Not available

\* EPA / CARB Stage 4 Final

# CHARACTERISTICS

Suspended cab

## Ergonomics

- Outstanding ergonomic operating concept
- Spacious cab with generous legroom, comfortable seats and smart arrangement of instruments
- Decoupled drive unit and suspended cab minimize vibration and provide healthy working conditions
- Simpler processes through forward or reverse travel with both pedals, and automatic stop if foot leaves pedal

Hydraulic direct drive

## Handling

- Powerful and precise operation thanks to hydrostatic drive
- Fast, eco-friendly handling processes guaranteed by high-torque, fuel-efficient engines with low exhaust emissions
- Exact load handling by fingertip with Linde Load Control
- Exceptional residual capacity for transport of very heavy loads

Protective overhead guard

## Safety

- Linde torsion support provides excellent stability and up to 30 % reduction in lift mast rotations at high load heights
- Unrivalled operator safety thanks to Linde Protector Frame and roof guard against falling loads
- Increased safety via automatic speed reduction during cornering
- Slim lift mast results in optimum all-round visibility

Hydraulic oil change

## Service

- Long maintenance intervals ensure maximum availability and minimal servicing costs
- First engine oil change and steering axle / mast lubrication not before 1000 operating hours
- Hydraulic oil change only after 6000 hours
- Absence of high-maintenance parts such as transmission, clutch and drum brakes further reduces service requirements

Subject to modification in the interest of progress. Illustrations and technical details could include options and not binding for actual constructions. All dimensions subject to usual tolerances.
